

Attention FCC members:

In regards to Low Power FM, I do not feel such stations should have priority over an existing FM station using the translator. K-LOVE is a wonderful Christian station and provides a needed service in our area and especially in areas that do not have access to Christian radio stations. Please do not displace K-LOVE for an unknown entity that will only service a small area. If there is room on the translator, LPFM stations would be okay, but in all likelihood fewer people would listen and benefit from an LPFM station. Thank you for the opportunity to provide my viewpoint. Sincerely, Bonnie Ranno
